TITLEIST PRO V1

THE GREATEST COMBINATION OF SPEED, SPIN AND FEEL

Pro V1 golf balls are the optimal premium performance choice for most players and the most played model in golf.

Why Play Pro V1?

Pro V1 is recommended to players who are looking for mid-trajectory flight, very low long game spin and maximum short game spin, with softer feel.

Comparison to Pro V1x

Due to its unique dimple pattern, Pro V1 has a lower flight than Pro V1x. A softer gradient core produces a softer feel and slightly less spin than Pro V1x.

Titleist AVX

Pure Distance. Tour-Inspired Spin.

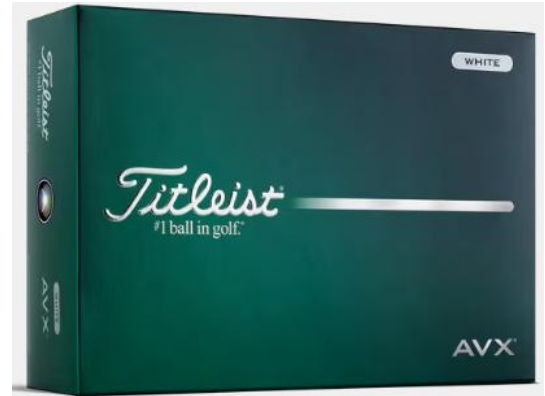

Every golfer wants distance and spin. The new AVX golf ball delivers both. AVX is a premium 3-piece construction delivering serious distance and control with very soft feel.

Why Play AVX?

AVX is recommended for players who may benefit from the combination of low spin in the long game, excellent greenside control, and very soft feel.

Comparison to Pro V1

Optimized aerodynamics create a lower flight than Pro V1, while a reengineered high-flex casing layer produces lower long game spin than Pro V1.

Titleist Tour Soft

Goes Far, Stops Fast, Feels Soft

The new Tour Soft golf ball is a complete combination of distance, stopping power, and soft feel. A hidden gem in the Titleist golf ball lineup, Tour Soft provides all-around tee-to-green performance to help you shoot lower scores.

Why Play Tour Soft?

Tour Soft is recommended for players who prioritize both distance and stopping power with soft feel.

Titleist Velocity

Explosive Distance and Durability.

For the player with one goal in mind, hitting it farther, the name Velocity says it all. New Velocity is faster and longer than ever. The new Velocity golf ball is longer from tee-to-green, has plenty of stopping power, and has a great feel off the clubface.

Why Play Velocity?

Velocity is recommended for players who value explosive distance and durability.

Titleist TruFeel

Truly Long. Truly Soft.

For some, a soft feeling golf ball is everything, but for most golfers, soft feel isn't everything. These golfers also expect quality, control, and above all, distance. That's where TruFeel comes in. TruFeel golf balls have ultra-soft feel, consistent short game control, and long distance.

Why Play TruFeel?

TruFeel is recommended for players who prefer ultra-soft feel, long distance and consistent greenside spin.
